SUMMARY

Product Designer with 8+ years making complex, data-heavy products understandable, in finance, healthcare and government. I own design end to end, from customer research and problem definition through implementation, launch and iteration: today for digital banking at US credit unions and a Brazilian federal bank, where I also write the specs engineers build from. As UX Tribe Lead across 10 squads I shaped product direction with product and engineering partners and set the design process. I stay close to users, build realistic prototypes with AI tools (Claude Code, Google AI Studio, Figma Make) and care about clear, polished interfaces. Based in Brazil (LATAM). Fluent English.

EXPERIENCE

Senior UX Designer / Business Analyst

Apr 2025 – Present

Integritas Solutions, Inc. · USA · Remote

- Design and specify digital banking features for US credit unions and a Brazilian federal bank, from discovery and requirements through handoff and UAT.
- Designed end-to-end experiences across Open Finance, PIX, lending, payments and account management, adapting each flow to its own business rules and regulatory context.
- Write the documentation engineering builds from (user stories, acceptance criteria, flows, edge-case scenarios and UI specs), cutting back-and-forth between design, product and dev.
- Contribute to the evolution of multiple design systems, keeping web and mobile channels consistent; also designed internal tools that support company operations.

UX Tribe Lead (promoted from UX/UI Designer)

Aug 2022 – Mar 2025

Intmed Software · Brazil · Remote

- Designed an Emergency Triage System adopted by 150+ hospitals of Hapvida, the largest health plan in North/Northeast Brazil, improving patient flow and response times.
- Rolled out a structured product discovery process across 10 squads, reducing time-to-market by ~25%.
- Built and maintained the design system and style guides for six medical products, cutting design time by ~30%.
- Promoted to Tribe Lead after 7 months; mentored junior designers and defined the company's design process, raising team performance by ~20%.

Product Designer

Jan 2022 – Aug 2022

Wipro · Brazil · Remote

- Redesigned interfaces and processes for Brazil's largest microcredit program, reaching 2M+ clients.
- Mapped the legacy system, designed new user flows and removed unnecessary clicks and barriers to key information.
- Standardized components, tokens and interaction patterns into a design system and wrote user stories with Product Owners.

UX/UI Designer

Sep 2021 – Jan 2022

Public Security Secretariat of Ceará (SSPDS) · Brazil

- Redesigned three mission-critical systems used by 6,000 police officers.
- Designed a fines-control app for the State Highway Police using Component-Driven Design and WCAG accessibility practices.
- Led two designers in heuristic evaluations and user research that shaped the redesigns.

Product Marketing Analyst (and Intern)

Mar 2020 – Aug 2021

SAS Educação · Brazil

- Designed and launched a marketing portal for 1,000+ partner schools: 4,456 page views and 498 downloads in the first month.
- Managed launch communication for two products; one launch enrolled 27 prospect schools in its first month.

UX/UI Designer & Researcher

2017 – 2019

Federal University of Ceará (UFC) · Brazil

- Eye-tracking and interaction research resulting in published papers; designed educational games for the Ministry of Education.

TEACHING & SIDE PROJECTS

UX/UI Design Instructor, TheStarter (Portugal)

Jan 2024 – Present

Teach cohorts of ~20 students UX/UI fundamentals through two portfolio projects.

Co-founder & Lead UX Designer, Re.tifica

Aug 2022 – Present

Social startup simplifying legal name and gender rectification for trans people; led research and testing to a 92.5 SUS score, plus an accessible design system.

AI Instructor, UFC Extension Course

Instructor in the Federal University of Ceará AI extension course.

EDUCATION

Postgraduate Specialization (MBA), User Experience Design and Beyond, PUCRS

2021 – 2022 · GPA 9.1/10

B.A. Systems and Digital Media, Federal University of Ceará (UFC)

2017 – 2021 · GPA 9.4/10

SKILLS

Design: Product Discovery, Customer Research, Usability Testing, Prototyping (AI-assisted), Interaction & Visual Design, Design Systems & Tokens, Information Architecture, Accessibility (WCAG), UX Writing, Workshop Facilitation

Product & BA: Requirements, User Stories & Acceptance Criteria, UAT, Agile/Scrum, Data Analysis, AI-assisted workflows

Tools: Figma, Miro, Zeroheight, Adobe CC (Illustrator, Photoshop, XD), Notion, Asana, Trello, HTML/CSS, Python, Looker Studio

AI: Claude, Claude Code, OpenAI Codex, ChatGPT, Gemini, NotebookLM, Google AI Studio, Google Stitch, Figma Make

Domains: Financial products & data-heavy B2B, Digital Banking, Healthtech, Government
