

# Espedito Roza

## Senior / Lead Product Designer · Complex Multi-User Products · AI-Assisted Prototyping

Fortaleza, Brazil (Remote, UTC-3) | +55 85 99973-3272 | [espedito.mesquita@gmail.com](mailto:espedito.mesquita@gmail.com)

Portfolio: [studiodito.co](http://studiodito.co) | [linkedin.com/in/espeditoroza](https://linkedin.com/in/espeditoroza)

### SUMMARY

Product Designer with 8+ years owning complex products end to end, from framing the problem to shipping. I design digital banking for US credit unions and a Brazilian federal bank, where each flow serves several user types and rules, and I designed an emergency triage system adopted by 150+ hospitals, with clinicians, managers and patients in the same flow. As UX Tribe Lead across 10 squads I set design direction, defined the design process and raised the bar for other designers. I prototype with AI every day (Claude Code, OpenAI Codex, Google AI Studio, Google Stitch, Figma Make) and work in Figma for high fidelity. I also co-founded Re.tifica, a social startup, and teach UX/UI. Fluent English, used daily with remote US teams.

### EXPERIENCE

#### Senior UX Designer / Business Analyst

Apr 2025 – Present

*Integritas Solutions, Inc. · USA · Remote*

- Design and specify digital banking features for US credit unions and a Brazilian federal bank, from discovery and requirements through handoff and UAT.
- Designed end-to-end experiences across Open Finance, PIX, lending, payments and account management, adapting each flow to its own business rules and regulatory context.
- Write the documentation engineering builds from (user stories, acceptance criteria, flows, edge-case scenarios and UI specs), cutting back-and-forth between design, product and dev.
- Contribute to the evolution of multiple design systems, keeping web and mobile channels consistent; also designed internal tools that support company operations.

#### UX Tribe Lead (promoted from UX/UI Designer)

Aug 2022 – Mar 2025

*Intmed Software · Brazil · Remote*

- Designed an Emergency Triage System adopted by 150+ hospitals of Hapvida, the largest health plan in North/Northeast Brazil, improving patient flow and response times.
- Rolled out a structured product discovery process across 10 squads, reducing time-to-market by ~25%.
- Built and maintained the design system and style guides for six medical products, cutting design time by ~30%.
- Promoted to Tribe Lead after 7 months; mentored junior designers and defined the company's design process, raising team performance by ~20%.

#### Product Designer

Jan 2022 – Aug 2022

*Wipro · Brazil · Remote*

- Redesigned interfaces and processes for Brazil's largest microcredit program, reaching 2M+ clients.
- Mapped the legacy system, designed new user flows and removed unnecessary clicks and barriers to key information.
- Standardized components, tokens and interaction patterns into a design system and wrote user stories with Product Owners.

#### UX/UI Designer

Sep 2021 – Jan 2022

*Public Security Secretariat of Ceará (SSPDS) · Brazil*

- Redesigned three mission-critical systems used by 6,000 police officers.
- Designed a fines-control app for the State Highway Police using Component-Driven Design and WCAG accessibility practices.
- Led two designers in heuristic evaluations and user research that shaped the redesigns.

#### Product Marketing Analyst (and Intern)

Mar 2020 – Aug 2021

*SAS Educação · Brazil*

- Designed and launched a marketing portal for 1,000+ partner schools: 4,456 page views and 498 downloads in the first month.
- Managed launch communication for two products; one launch enrolled 27 prospect schools in its first month.

#### UX/UI Designer & Researcher

2017 – 2019

*Federal University of Ceará (UFC) · Brazil*

- Eye-tracking and interaction research resulting in published papers; designed educational games for the Ministry of Education.

### TEACHING & SIDE PROJECTS

#### UX/UI Design Instructor, TheStarter (Portugal)

Jan 2024 – Present

Teach cohorts of ~20 students UX/UI fundamentals through two portfolio projects.

#### Co-founder & Lead UX Designer, Re.tifica

Aug 2022 – Present

Social startup simplifying legal name and gender rectification for trans people; led research and testing to a 92.5 SUS score, plus an accessible design system.

#### **AI Instructor, UFC Extension Course**

Instructor in the Federal University of Ceará AI extension course.

### **EDUCATION**
